

Irlam and Cadishead Academy

The best in everyone™

Part of United Learning

Welcome to Geography at ICA!

Before you start with us in September we would like you to start thinking about how you are connected to Geography. Included here are a few different tasks to see what your knowledge of the world is like and how you are connected to places close by and far away.

Task 1: Where in the World

Can you colour and label the name of any country that you have been to or have got connections to. For example; you might have been to Lanzarote on holiday or have an Aunt who lives in Brazil!

Task 2: Can you locate where we are in the UK on the map above. Colour it in and add lines from the UK to each of the countries you are connected to.

Task 3: My Map

What are the places in the local area that are important to you?
Friends or relatives houses or places you play. Can you draw a map
from your house to there. Try to use a birds eye view if you can and
add in anything else you can remember on the way.

My house:

Task 4: My Island

In Geography we study natural landscapes and people and the cities they live in.

We look at natural features such as rivers, mountains and glaciers. We also look at the man made things around us like towns and cities.

Can you use the next page to design your own island. It should have a mixture of man made and natural features.

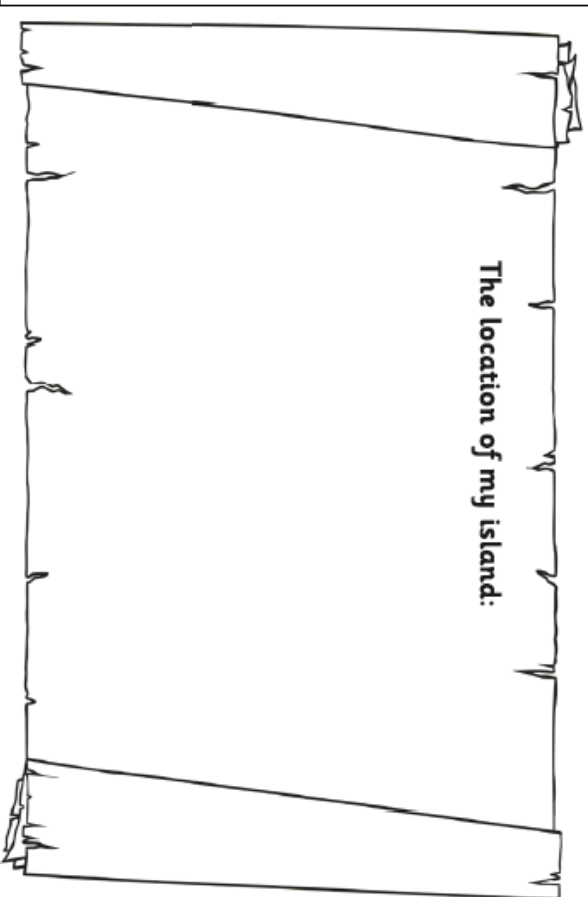

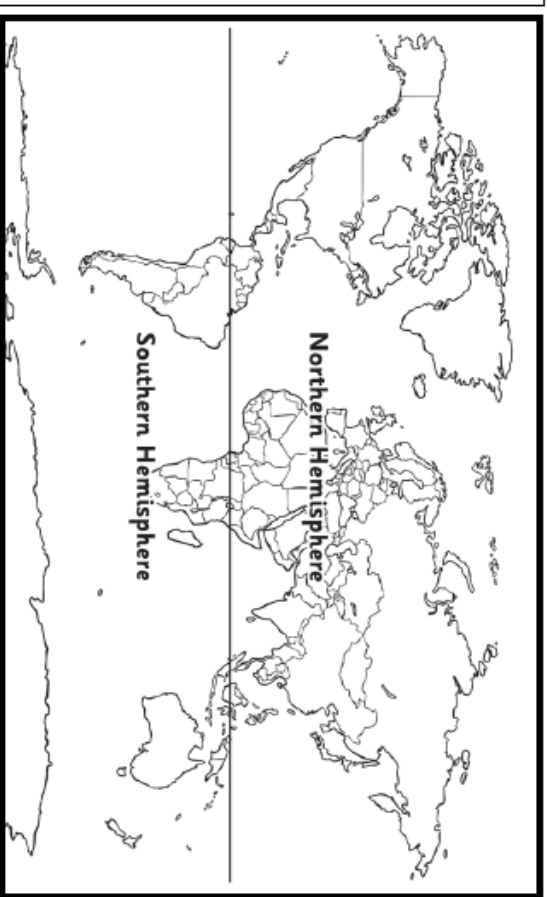

You could also decide where in the world you island will be located. It could be a cold island near the Poles or a tropical island near the Equator.

Add a description of where your island is and what other countries it is near.

My Island: _____

Task 5: Design a Flag

Finally, for your island you will need to design a flag that represents your island and its people. What symbols could you use on your flag to show what your island is like?

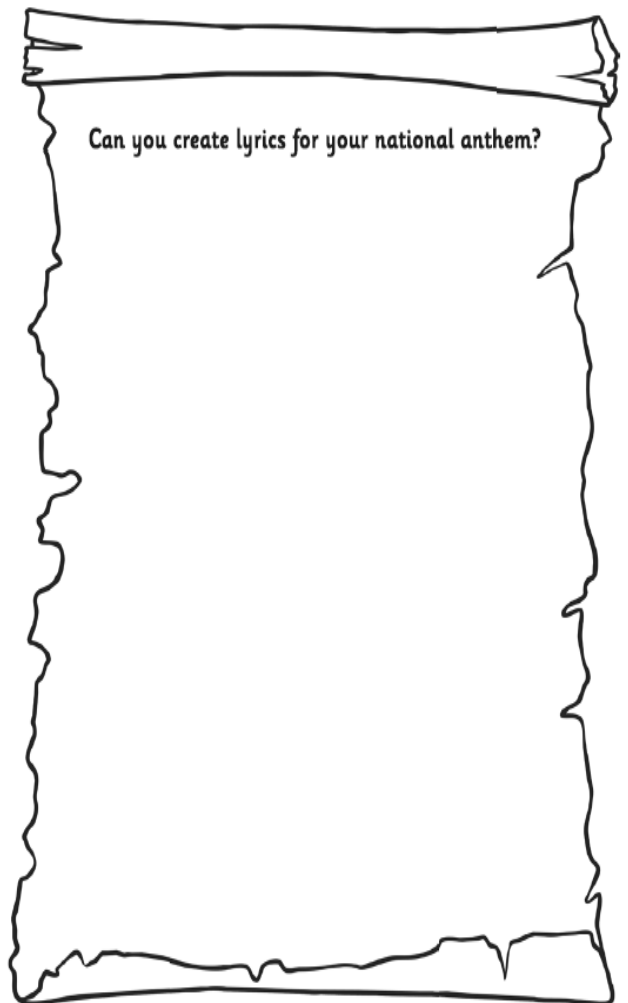

You could then design a national anthem. This could be a short poem that tells other people in the world what you stand for.

You could use it to tell people how much your island loves football or how it is full of endangered red pandas.

Creating a National Identity

The story behind my national flag...

Summer Holiday Wordsearch

Can you find all 20 words in the word search?
